

# 2026 Water, Wastewater & Stormwater Rates

In November 2025, Council approved 2026 rates to fund water, wastewater, and stormwater operations and infrastructure renewal. By law, all costs associated with operating municipal water systems must come from users.

**In 2026, water rates will increase by 4.5%, wastewater by 5%, and stormwater by 9%. For an average household with all three services, this amounts to an increase of \$6.15 per month before any variable rate charges. For those with stormwater services only, this amounts to an increase of \$1.53 per month.**

## How much will I pay per month in 2026?
